*****No binder needed at this time. Since desk space is limited we are trying something new*****

Make Time for Learning

- Set aside time to read each day during the summer break -- 15 to 30 minutes per day is all it takes to preserve and strengthen your reading skills.
- Working on just three to four math problems per day during the summer can prevent your mathematical skills from getting rusty. Practice your multiplication facts 1-12!
- iReady is a great Math and Reading learning tool. It will remain open all summer and available to you through your Google/Clever login.
- Remember, over the summer, keep track of books you read. This will help you get a jump on your 4th grade year! We can't wait to hear about the good books you read this summer.
